

## Remedial Classes for Slow Learners

Remedial Education, also known as Basic Skill development is instruction based education provided to students who need more support in core subjects such as Accounts, Computer Architecture, Maths, Physics, Programming Languages, etc.

The strengths and weaknesses of students are important to take into account so that appropriate teaching approaches can be adopted to meet their individual needs. The ultimate aim of remedial teaching is to help students who have fallen behind to learn according to the best of their abilities and to bring them back into mainstream classes as far as possible.

Ms. Supreet Talwar is In-charge of these remedial classes.

### OBJECTIVES

- To provide basic education to the weak students.
- To enhance the learning capabilities of the students.
- Improving the confidence level of the students.
- To improve the pass percentage of all the courses.

### SCHEME

- Remedial classes are scheduled from time to time.
- Simplified notes are provided by the teachers.
- Their assignments are checked on regular basis.
- Peer learning is promoted
