

Soft Skill Development and Language Lab

The college has a well-equipped language lab which facilitates students to acquire efficiency in soft skills and gives proper training to eradicate the complexities of speaking English. It also helps in improving the skills of students who have poor communication skills.

OBJECTIVES

- To improve the listening, reading, speaking and writing skills of the students.
- To improve the vocabulary by practicing various exercises.
- To handle the speech disorders of students.
- To inculcate better interview skills.
- To help in improving the confidence level of the students.

SCHEME

- Language lab is equipped with 25 computer systems with headphones.
- Updated version of “Words Worth” Software is installed.
- Classes on communication skills, soft skills, speaking course and personality development are held.
- Guest lectures on Soft skills and related topics are organised from time to time.
- Separate hobby classes (free of cost) are organised for the school students in the month of April-May.
